

### Overview:

This multi-purpose model provides gynaecology facilities as well as a full length couch design for a wide range of examination procedures. The couch features a choice of electric or hydraulic height adjustment and has a seat with cut-out and pelvic tilt facility at one end for gynaecology procedures, with lithotomy stirrups and a removable debris tray supplied as standard. A raising backrest is provided for supporting the patient in a sitting position. At the other end of the couch there is a raising head section with breathing hole and plug for prone treatments and general examinations.
